

## How to install Extension on QlikView Server

For each Extension added to the QV Desktop will create a folder in the % USERPROFILE% \ AppData \ Local \ QlikTech \ QlikView \ Extensions \ Objects \;

To install your Extensions on the QlikView Server, you will need and Extension Folder are copied to the % ProgramData% \ QlikTech \ QlikViewServer \ Extensions \ Objects.

So, just copy all items in % USERPROFILE% \ AppData \ Local \ QlikTech \ QlikView \ Extensions \ Objects \

To % ProgramData% \ QlikTech \ QlikViewServer \ Extensions \ Objects

And the Extension will work on the server.
