1 QlikView is an in-memory analysis technology; memory requirements for QlikView products are directly related to the quantity of data being analyzed.

2 Third-party security requires QlikView Server Enterprise Edition.

3 Android browser support may require anonymous access to be enabled on the QlikView Server, depending on the specific version of Android being deployed (requires session or usage cal's – not available on a Small Business Edition QlikView server).

4 Recommended for development and testing purposes only.

5 QlikView Publisher, QlikView web parts for Microsoft SharePoint®, and QlikView Workbench are additional licensed modules of QlikView Server. They are installed by applying a license to a QlikView Server. QlikView web parts for Microsoft SharePoint® and QlikView Workbench require QlikView Server Enterprise Edition.
