

Hi,

I use Talend 5.6.2 (with java 6) with which twebservice component works. As tls is disabled in salesforce, talend 5.6.2 doesn't work anymore.

Before I tried with Talend 6.1.0 but twebservice component didn't work. I had error :

Exception in component tWebService_1

java.lang.NullPointerException

at org.apache.cxf.common.util.Compiler.useJava6Compiler(Compiler.java:187)

at org.apache.cxf.common.util.Compiler.compileFiles(Compiler.java:141)

at org.apache.cxf.common.util.Compiler.compileFiles(Compiler.java:136)

at test.Flux.tWebService_1Process(Flux.java:929)

at test.Flux.runJobInTOS(Flux23_premep.java:8647)

at test.Flux.main(Flux23_premep.java:8445)

: test.Flux- java.lang.NullPointerException

Did the problem twebservice fix on 6.1.1? or is there a way to use 5.6.2 with tls deactivated?

I've tried also in 5.6.2 by adding -Dhttps.protocols=TLSv1.1,TLSv1.2 in twebservice but I have error below:

22 juin 2016 11:10:59 org.apache.cxf.phase.PhaseInterceptorChain doDefaultLogging

ATTENTION: Interceptor for {urnartner.soap.sforce.com}SforceService#{urnartner.soap.sforce.com}login has thrown exception, unwinding now
