

Hello,  
I have designed a simple job that uses the tRESTRRequest et tRESTRResponse to provide some information in REST.  
It works pretty good. But I have this message :

Exception in component tRESTRRequest\_1\_In

```
java.lang.RuntimeException: {URI_ABSOLUTE=http://localhost:8088/favicon.ico, ERROR=null, VERB=GET, STATUS=404, URI_BASE=http://localhost:8088/,

So I tried the "Log messages" option in the tRESTRequest component. It displays this :
