

We've recently upgraded to 6.2.1 from 5.4.

Everything went fine except these two issues:

1) For every restart of Studio, I'm getting the following ERROR

"Share libraries :jxl-6.0.0.jar failed !

<https://aaa.bbb:8888/nexus/content/repositories/talend-custom-libs-release/org/talend/libraries/jxl/6.0.0/jxl-6.0.0.jar>"

Shown in Pic (top)

2) While publishing a job through GIT it fails for me, while it works perfectly well on my colleague's machine (checked all the configuration, looks perfectly synced)

(Shown in the bottom of PIC and attaching the whole log too)
