

Hi, thanks for reaction. I guess my screenshot is not attached, [check here](#) .. I attach the log file and bigXML. Which step of Input XML process you want to see? Mind that creation of Input XML works (sometimes if Talend does not fall) fine, but schema is disappeared suddenly afterwards. See stuff attached. In general on the screenshot u can see file xml without schema which is generally wrong.

BIG.XML I'M TRYING TO MAP BY SEVERAL (30-40) INPUT XML FILES  
[here](#)

#### LOG WITH ERROR WHILE CLICK ON XML METADATA FILE
