/ introduction section

About Us

Our creative work not only looks aesthetically beautiful, but provides an amazingly simple and intuitive user experience. Our constant endeavour is to ensure security, quality and transparency in all the services we render. In the entire journey, we have worked with major clients and various government projects across the globe

Mr. Vinay Jain

Founder & CTO

/ introduction section

A Journey From Notion to Innovation

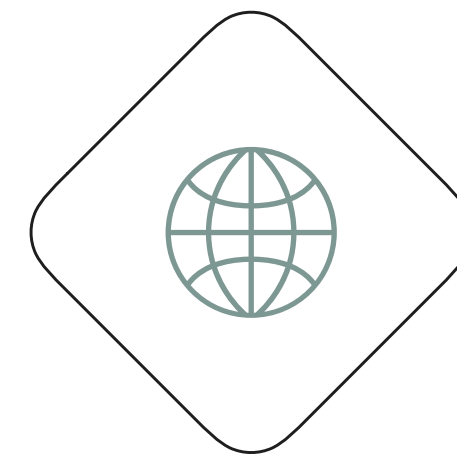

Grepix showcased indigenous capability in providing quality and cutting-edge, yet cost-effective software development solutions across the globe. Grepix focused on expanding its footprints in emerging technologies such as IoT, Home Automation, Augmented Reality, Beacons, 3D Modelling and Machine learning.

What Can We Do?

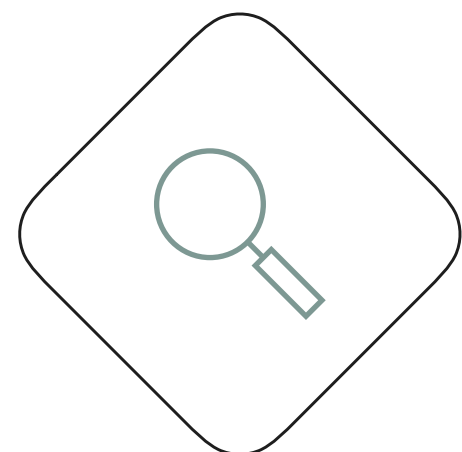

Mobile App Development

We offer wide set of technologies for mobile app development across platforms.

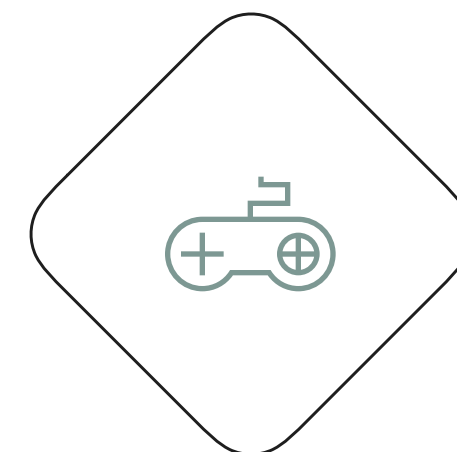

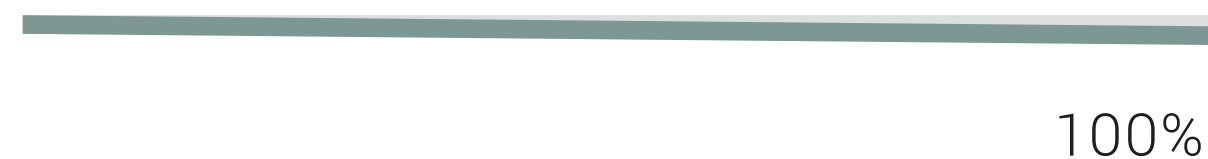

Websites & e-Commerce

Our experts provide end-to-end solution from seed idea to an implementation via the power of RIA.

SEO & Marketing Services

We not only offer Digital marketing services, we build products that are easy to market and reduce overall time and cost incurred on it.

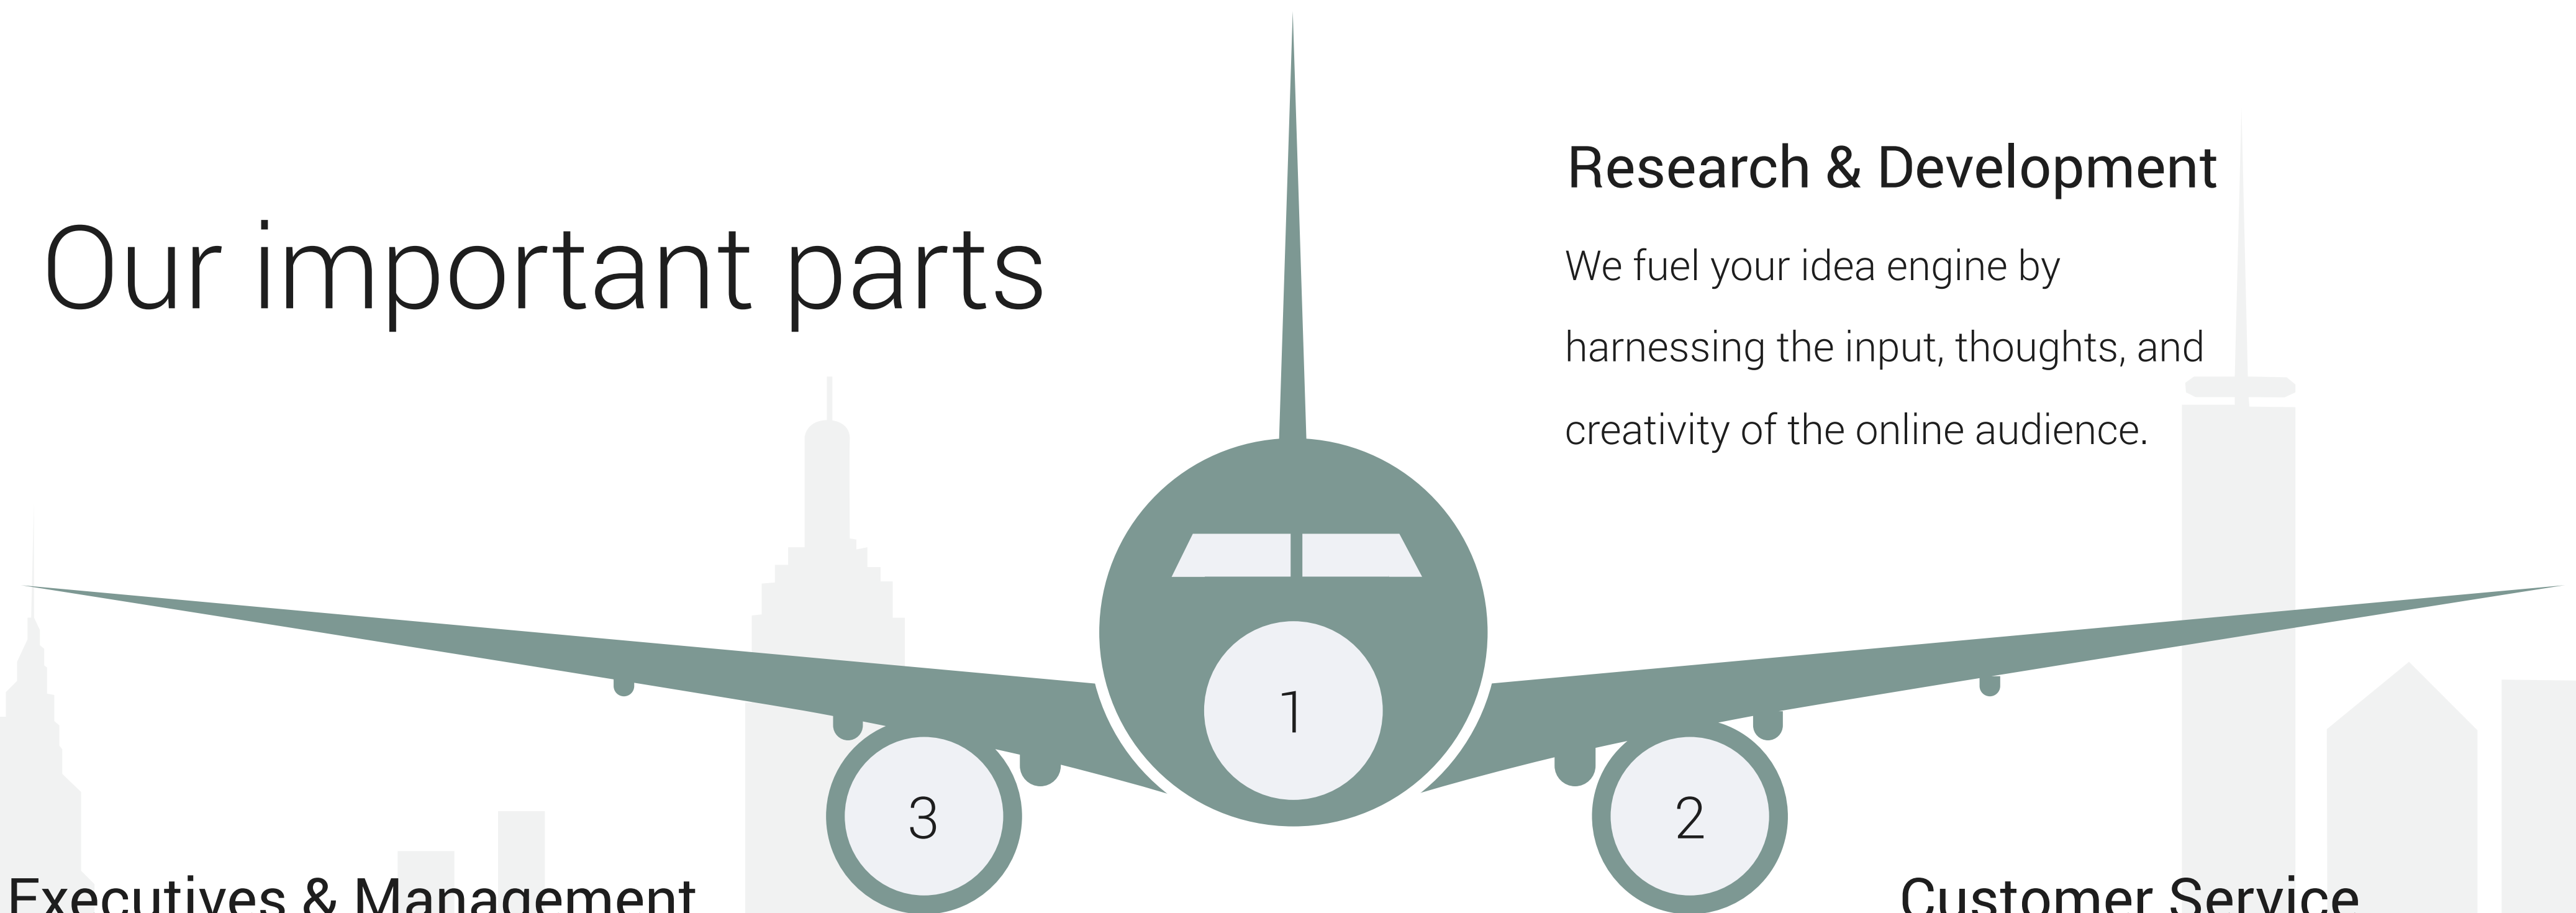

Games Development

Blended with a passion to create exciting & ultra-imaginative games, Grepix IT has carved a high standard in the gaming development industry.

Our important parts

Research & Development

We fuel your idea engine by harnessing the input, thoughts, and creativity of the online audience.

Executives & Management

Based on what our leadership learns through listening, it identifies potential adjustments to the strategic plan even on the company's vision overall.

Customer Service

Our customers are High-Value assets for us. Our support team is equipped with front-line arms to give customer an environment of trust to make it

Our ACHIEVEMENTS

Promise from OUR expert team

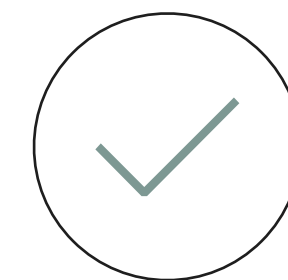

Customer loyalty has always been the holy grail of organic growth. The fastest way to increase revenue and margin is not to push sales and marketing teams to land new customers, but to stop leaking customers.

Wide Technology Portfolio

Top Quality & Performance

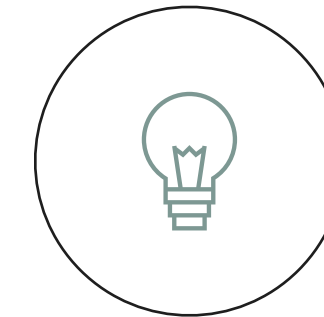

Felicitous & Responsive

What people looking for ??

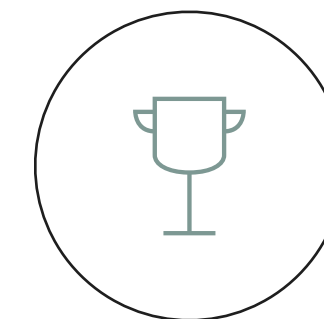

We have it all

In fact, delivering excellent customer service is one of Grepix' company values. There are thousands of negative customer service stories on the web, but very few great stories, yet it's the great stories that stand out the most!

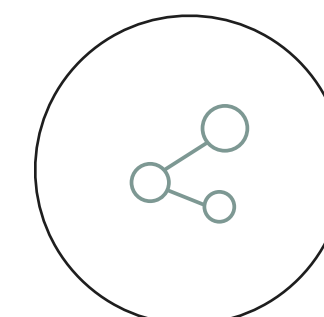

Great Quality

The enhanced skill set of our team is used to undergo through a process with aim of delivering quality

Timely Delivery

On-time delivery became our Companys' culture. It is the ability of businesses to meet the customers' demands and deliver the services to the customer punctually.

Cost Effectiveness

Reduce total cost of development by using our standard software development methodologies and expertise in wide technology stack.

4 Reasons: Why business with us?

1

Brand Reputation

Earned Top 10 badge twice from StartupCity and InsightsSuccess magazines.

2

Exceeding Expectations

Our 100% focus is to exceed customer expectations, and to deliver them beyond their imagination. Its giving FUEL to production.

3

Delivering Promises

You've to pay only on/after delivery. If product is not upto client expectation, we refund the whole cost.

4

Excellent Support

Our leaders put themselves in their customers' shoes by investigating the ease and accessibility of their customer support and then investing in methods to resolve any inefficiencies.

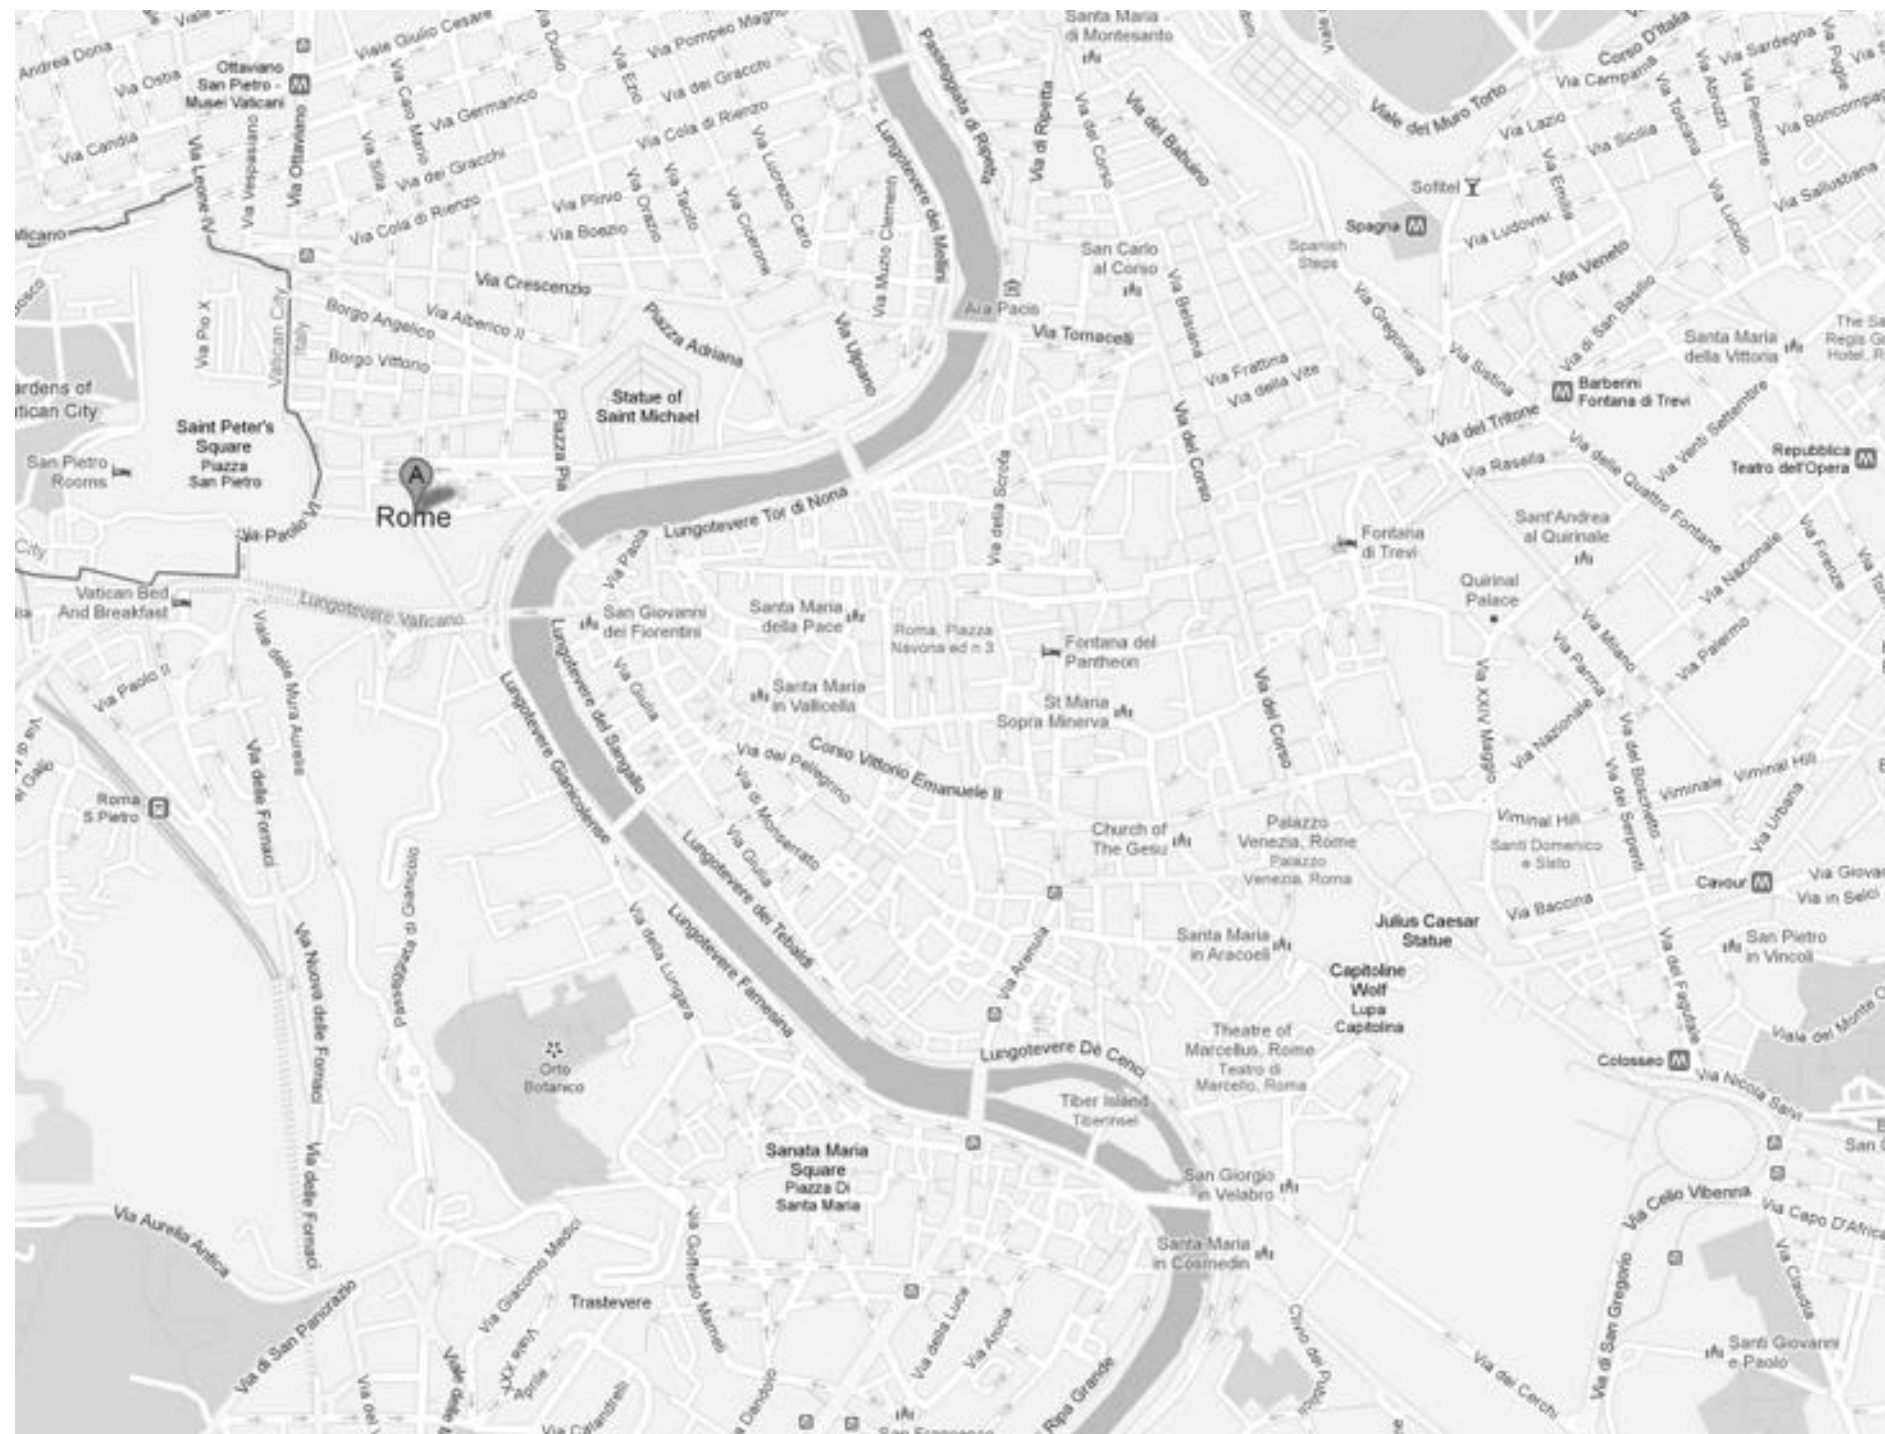

Let's help your business

We have absolutely solid and experienced team more than 10 years in the sector of Mobiles and web app development, web design, graphics and logo design, SEO, and digital marketing.
